### In accordance with Regulation (EC) No 1907/2006 Revision date: 21/10/2015 Version number: SDS030 v03

### 3. Composition/information on ingredients

**Composition:** A multi-component dehydrated powdered medium composed of peptone mixture, yeast extract, lactose, sucrose, phenol red, buffering agents, brilliant green, novobicin and agar.

#### Hazardous ingredients:

Component	CAS-No.	EC-No.	Concentration	CLP Classification – 1272/2008/EC	Classification to – 67/548/EEC
Brilliant green	633-03-4	211-190-1	<0.1%	Acute toxicity oral, Cat. 4; Eye irritation Cat. 4. H302: Harmful if swallowed H319: Causes serious eye irritation	Xn, Harmful. R22- harmful if swallowed. R36 – irritating to eyes.
Phenol red (sodium salt)	34487-61-1	252-057-8	<0.2%	Skin irritant Cat. 2; Eye irritant Cat. 2; Specific target organ toxicity singe exposure Cat. 3. H315: Causes skin irritation H319: Causes serious eye irritation H335: May cause respiratory irritation	Xi, Irritant. R36/37/38 - irritating to eyes, respiratory system and skin.
Novobiocin sodium salt	1476-53-5	216-023-6	<0.1%	Eye irritant Cat. 2; Skin Sensitiser Cat. 1. H317: May cause an allergic skin reaction. H319: Causes serious eye irritation.	Xi, Irritant. R36 – irritating to eyes. R43 - May cause sensitisation by skin contact.

## 4. First-aid measures

### 4.1 Description of First Aid measures

General advice: Consult a physician. Show this safety data sheet to the doctor in attendance.

- Eye contact: Rinse thoroughly with plenty of water for 10 to 15 minutes, also under the eyelids. Obtain medical attention if irritation persists.
- Skin Contact: Wash off skin thoroughly with soap and plenty of water. Obtain medical attention if irritation persists.

Ingestion: Rinse mouth out with plenty of water. Obtain medical attention if symptoms occur.

Inhalation: Move person to fresh air. Obtain medical attention immediately if symptoms occur.

### 4.2 Most important symptoms and effects, both acute and delayed

No information available.

### 4.3 Indicate any immediate medical attention and special treatment needed

No information available.

# 5. Fire fighting measures

#### 5.1 Extinguishing medium

Suitable extinguishing media: Use water spray, CO<sub>2</sub>, foam or dry powder as the extinguisher medium.

Extinguishing media which must not be used for safety reasons: No information available

# 5.2 Special hazards arising from the substance or mixture

Combustible material. Thermal decomposition may lead to release of irritating gases and vapours.

#### 5.3 Advice for firefighters

Wear suitable self contained breathing apparatus for fire fighting if necessary.

# 5.4 Additional information

No data available.

# In accordance with Regulation (EC) No 1907/2006 Revision date: 21/10/2015 Version number: SDS030 v03

### 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Wear appropriate protective equipment. Avoid dust formation.

Accidental release measures

### 6.2 Environmental precautions

Should not be released into the environment.

6.

### 6.3 Methods and materials for contamination and cleaning up

Sweep up or vacuum up spillage in suitable container for disposal. Avoid dust formation.

# 6.4 Further information

No data available.

7. Handling and storage

### 7.1 Precautions for safe handing

Avoid contact with eyes, skin and clothing. Avoid ingestion and inhalation. Avoid dust formation.

# 7.2 Conditions for safe storage, including any incompatabilities

Store at 10 to 25°C. Keep tightly closed in the container provided. Protect from direct sunlight and moisture.

### 7.3 Specific end use(s)

This product is for laboratory use only and should only be used by suitably trained laboratory personnel.

### 8. Exposure controls and personal protection

# 8.1 Control parameters

Components with workspace control parameters: Contains no substance with occupational exposure limits.

### 8.2 Exposure controls

Engineering controls:	No engineering protection required.		
Personal protective measures:	res: Body protection: Wear standard microbiology laboratory coat.		
	Eye/face protection:	Safety glasses with side shields conforming to EN 166.	
	Skin and hand protection:	Handle with suitable gloves conforming to EN 374.	
	Respiratory protection:	Wear a face mask to EN149 FFP2S or use a ventilated extraction weighing cabinet.	
General hygiene measures:	Example in accordance with good laboratory practice. Wash hands before breaks and at the end of the working day.		

Dehydrated powder. Mild meaty smell. Not applicable. Straw coloured. pH 6.9 ±0.2 . No data available. Soluble in hot water. No data available. No data available.

# In accordance with Regulation (EC) No 1907/2006 Revision date: 21/10/2015 Version number: SDS030 v03

# 9. Physical and Chemical properties

### 9.1 Information on basic physical and chemical properties

Physical appearance: Odour: Odour threshold: Colour: pH value:
Melting point/freezing point:
Initial boiling point/range:
Flash point:
Evaporation rate:
Flammability (solid, gas):
Explosive limits: Vapour pressure:
Vapour pressure.
Relative density:
Solubility in water:
Solubility in other solvents:
Partition coefficient (n-octanol/water):
Auto-ignition temperature:
Decomposition temperature:
Viscosity: Vapour density:
Explosive properties
Oxidising properties:
51 1

9.2 Other information

No data available.

### 10. Stability and reactivity

This product is not explosive in normal circumstances.

10.1 <u>Reactivity</u>

No known on information available.

No data available.

10.2 Chemical stability

Stable under normal conditions.

### 10.3 Possibility of hazardous reactions

No data available.

10.4 Conditions to avoid

Hygroscopic. Avoid exposure to sunlight.

# 10.5 Incompatible materials

None known.

### 10.6 Hazardous decomposition products

None under normal use conditions.

# In accordance with Regulation (EC) No 1907/2006 Revision date: 21/10/2015 Version number: SDS030 v03

# 11. Toxicological information

### 11.1 Information on toxicological effects

Overall product information: This product does not present an acute toxicity based on known or supplied information.

### 11.2 Toxicological data for the components

Acute toxicity:	No data available.
Skin corrosion/irritation:	No data available.
Serious eye damage/ eye irritation:	No data available.
Respiratory or skin sensitisation:	No data available.
Germ cell mutagenicity:	No data available.
Carcinogenicity:	No data available.
Reproductive toxicity:	No data available.
Specific target organ toxicity – single exposure:	No data available.
Specific target organ toxicity – repeated exposure:	No data available.
Aspiration hazard:	No data available.
Potential health effects:	No data available.

### 12. Ecological information

### 12.1 Toxicity

This product is not hazardous to the environment or that are not degradable in waste water treatment plants.

# 12.2 Persistence and degradability

Expected to be biodegradable.

### 12.3 Bioaccumulative potential

No data available.

## 12.4 Mobility in soil

No data available.

# 12.5 Results of PBT and vPvB assessment

None known.

### 12.6 Other adverse effects.

No data available.

# In accordance with Regulation (EC) No 1907/2006 Revision date: 21/10/2015 Version number: SDS030 v03

13. Disposal considerations			
Disposal considerations: Dispose of in accordance with local and national regulations. Dispose of all used contaminated waste, e.g. used plates, according to local microbiological rules.			
14. Transport information			
14.1 <u>UN Number</u>			
ADR/RID: IMDG: IATA: Not dangerous for shipping			
14.2 UN proper shipping name			
ADR/RID: IMDG: IATA: Not dangerous for shipping			
14.3 Transport hazard class(es)			
ADR/RID: IMDG: IATA: Not dangerous for shipping			
14.4 Packaging group			
ADR/RID: IMDG: IATA: Not dangerous for shipping			
14.5 Environmental hazards			
ADR/RID: IMDG: IATA: None known.			
14.6 Special precautions for user			
No data available			
15. Regulatory information			

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

No data available.

# 15.2 Chemical safety assessment

Chemical safety assessment reports are not required for mixtures/IVD products.

16. Other information				
Original origination date:	20/09/2004			
Reason for change to document:	Storage conditions corrected from 2 to 8°C to 10 to 25°C.			
	The above information is believed to be correct but does not purport to be all inclusive and shall be used as a guide only. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions.
